

# VILLA MALOLO

The ultimate dream holiday on an island paradise,  
in your own luxury villa

## ACCOMMODATION

Villa Malolo is a "Santa Fe" style private villa perched on the hillside on the island of Malolo Lailai in the beautiful Fijian Islands. It is a wonderful retreat for the family or for friends who would like to share their holiday experience in unique style. The villa is situated at the Northern end of island on just under 1 acre of tropical gardens, with an elevated position over direct waterfront and with just 21 steps to a secluded beach.

The villa is a large open planned structure designed by Adrian Sofield. The designer of Vatu Le Le Resort one of Fiji's finest five star resorts. Solid concrete and timber pole construction, with extensive concrete decks surrounded by Tropical Gardens.

There are a number of private areas within the confines of the Villa site. Even with 8-10 people within the villa, there is always an area you can escape for that quiet siesta under a palm tree, or to just read a book, in one of the hammocks. The northern lawn pergola area has 3 hammocks that overlook the ocean and more often than not, a nice gentle breeze is blowing. And if you are so inclined you can walk down the stairs to your own private little beach.

The Villa has a large kitchen and concrete polished floors which guarantees coolness underfoot all year round. The general feeling is a cool, refreshing waterfront property which is most importantly private, as sometimes most of us like to mix and have fun in the resort and all its facilities, but like to retreat to some place that is quite and private.

There is a 38' free form pool and an adjoining 12' children's pool that waterfalls into it. BBQ area and multiple dining areas.

Again, with notice you can enquire with 'Vena' at the 'Trader' within Musket Cove who can supply some fantastic curries and local dishes delivered to your villa. Fijians are very good curry cooks with the large Indian population in Fiji. The kitchen is equipped with utensils, crockery, cutlery and other amenities plus an outside barbecue area.

The villa features include remote control colour television and video, radio, microwave and hairdryer, iron and ironing board. There is a laundry service available through the Musket Cove resort.

The villa is just 10 minutes walk to Musket Cove Resort where the facilities include restaurants, a fully stocked supermarket, shops, yacht charters and water sports - all available to Villa Malolo guests.

# VILLA MALOLO

## MALOLO LAI LAI, FIJI

The Island of Malolo Lai Lai (Little Malolo) sits next to Malolo Island. Malolo is a native lease island, whilst Malolo Lai Lai is a freehold island owned by the Smith Family. The two islands form a giant protected horseshoe shape, separated by a sand spit and in turn creating a giant lagoon which is not only beautiful for swimming and coral viewing but is the best known anchorage and super yachts in the South Pacific. Every large yacht visiting the South Pacific chooses this mecca for its anchorage for its location and protection from the tradewinds. Musket Cove Resort also has full marina facilities and fully stocked supermarket, which makes it the perfect location for longer term stays.

With the mix of yachties, world travellers and weekly guests on Musket Cove Resort it makes for an interesting drink down at the '3'Bar at the end of the Marina at Musket Cove. If you don't feel like mixing, there are many private beaches on the island accessible by mountain bike, golf cart or just a walk. Mountain bikes and golf carts are available, the latter with notice with your booking agent.

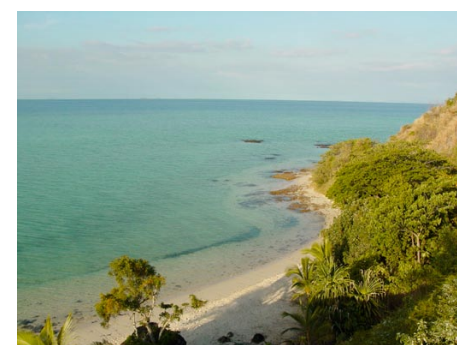

Musket Cove Resort has the 'Trader which operates all day and every day for fantastic breakfasts, lunches and early dinners – great smoothies. For more formal dining and a great cocktail and wine list, the main restaurant overlooks the olympic size free form pool - perfect for the island sunsets. The entire resort faces west into the island fringed lagoon as does Villa Malolo, so wherever you are at the resort, one of the beaches or the Villa – island sunsets you cannot miss.

Every imaginable island activity is available at the resort including full PADI certification. Another fantastic thing to do is the Sunset Cruises or Chartering a speed boat for a lunch or afternoon drink at one of the surrounding other islands. The entire area is dotted with island and most have resorts with great restaurants and bars on them. Castaway for the open fire pizza, Malolo Resort, Beachcombers for the younger crowd.

There are two other great restaurants on the island itself – Plantation Island Restaurant and Ananda's Restaurant that has a great local menu and a resident band. Plantation also has para-flying and big banana rides for kids. There are two boutiques on the island with most back up medical gear and some prescriptions can be filled overnight or within 24 hours. Fantastic spa and massage Centre at Musket Cove with a huge massage Bure right on the beach with girls ready to pamper you. way back or stop for a lunch somewhere.

There are two other great restaurants on the island itself – Plantation Island Restaurant and Ananda's Restaurant that has a great local menu and a resident band. Plantation also has para-flying and big banana rides for kids.

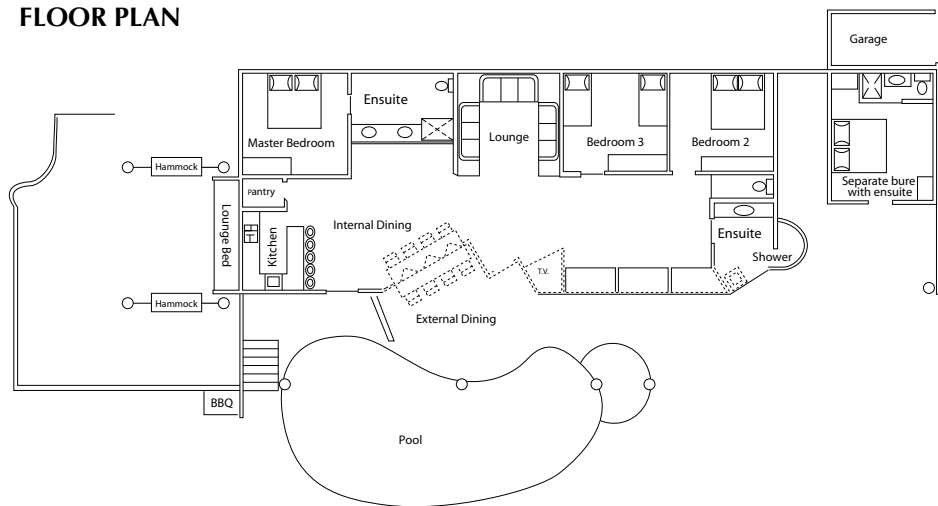

If your love is surfing or body boarding, the islands of Tavarua and Namotu are 8-10 minutes by boat. Certain breaks are always open to be surfed. You can either charter your own speedboat or there are two local operators on Malolo Island that will pick you up at the bottom of the stairs at Villa Malolo, just let the Sports Bure know at Musket Cove Marina and they will book your pick up – every morning if you like – the operators will give you a good deal, usually about \$ 40-50 for 3 hours – its good value. Or you can surf for 1 hour and snorkel on the way back or stop for a lunch somewhere.

# VILLA MALOLO

Just 21 steps down to a secluded beach,  
or dip in your own private pool

## FLOOR PLAN

## GETTING THERE

Fiji's two International airports are Nadi, on the western side and Nausori on the east coast of Viti Levu near Suva.

Nadi and Nausori provide air connections to all of the world's major cities, with direct flights to and from the USA, Canada, Australia, New Zealand, Japan, and Korea, serviced by eight international carriers.

Flight Times to Fiji: Sydney 3 hrs 50 min.

Most people overnight at Denaran Island which is connected to the mainland by bridge about a 15 minute cab ride from the Airport (Nadi). There are a number of international hotel and villas for rent within this complex plus Twin 18 Hole golf courses.

Most elect the following morning to take the Malolo Cat Ferry which is a 60 foot high speed catamaran to the Island, 45 minutes. This service leaves 3 times daily. There is also Island Hoppers Chopper Service (8 minutes), high speed water taxi (25 minutes) or 10 seater aircraft from Nadi Airport as the island has it's own airstrip or seaplane.

So transport to Malolo Lai Lai

From Denaran Mariana: Malolo Cat Ferry Service or Water Taxi

From Airport: Island Hopper Chopper Service (modern), Sunflower Airlines 10 seater or Turtle Airways Sea Plane

Both the chopper and seaplane can land outside the villa just for a bit of fun. If your air schedule allows for it you do not have to overnight, on the way there or back.
